UZI

**SPECIALLY DESIGNED
FOR SECURITY,
LAW ENFORCEMENT
AND COMMANDO
FORCES**

ISRAEL MILITARY INDUSTRIES

ACTUAL SIZE

Israel Military Industries, creator of the world-renowned UZI, has now produced a new, specially designed UZI, reduced in size and weight, but retaining all the rugged reliability that has brought the UZI the confidence of fighting men the world over. This new weapon is called the Mini-UZI.

With stock folded, the Mini-UZI measures just over 14 inches (360mm) in length, permitting easy concealment under ordinary clothing and carriage in minimal space in vehicles. It can be fired full or semi-automatic from the hip or, with stock extended, from the shoulder.

Its perfect balance makes it easy to control during automatic fire, permitting sustained accuracy, even at a high rate of fire. Its simplicity makes it easy to clean and maintain. Fast, agile and completely dependable, the Mini-UZI is today's weapon for security and law-enforcement personnel and commando operations.
